

Coding Skill is a Life Skill

Norman Ganto

12 August 2021

“Only” 3 Things

1. Mindset
 2. Approach to solutions
 3. Hard skill
- } Soft skill

5 GROWTH Mindset

1. Flexible working environment
2. Ability to customize own work for results
3. Shares information
4. Learning worker vs. Knowledge worker
5. Collaborative

Applying Critical Thinking

Is Green Tea for you?

Critical Thinking - is Green Tea good for You?

Too broad. What does “Good’ even mean? To which group of people?

Green tea is good until how many cups per day?

“Is drinking green tea good for your heart in Asian countries?”

Why is it important?

Critical thinking skills are the cornerstone of self-development and improvement. That's why they're so critical to have in today's job market.

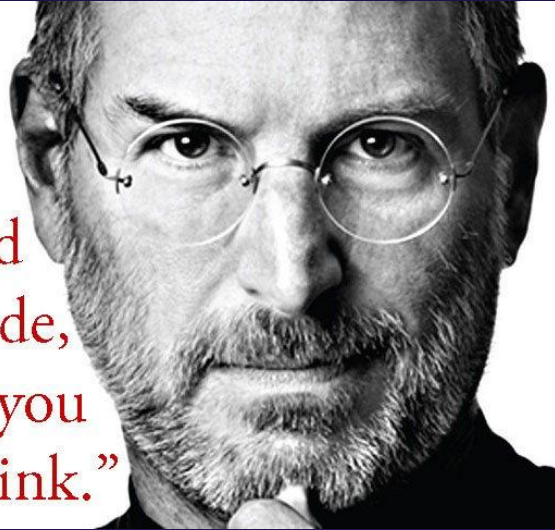

A recent report by the AACU revealed that 93% of employers value critical thinking over the candidate's studies in University

Hard Skill of the Decade

Steve Jobs

1955-2011

“Everyone should
learn how to code,
it teaches you
how to think.”

Why Coding

Problem-solving

Confidence

Creativity

Self Reliance

Critical Thinking

Resilience
